

*Dear Valued Clients of Full Circle Veterinary Hospital:*

Like so many of you, we have spent the last several weeks learning about the coronavirus (COVID-19) and how it is impacting our world. Full Circle Veterinary Hospital Team is closely monitoring the status of the outbreak, its potential impact on our hospital, and making the necessary adjustments to our work and operations.

Full Circle Veterinary Hospital has proactively started deep clean protocols and infection control procedures. Rest assured, our hospital is always clean and disinfected each night before we close, but in light of the recent news we have increased our cleaning and disinfecting each day! We have a straightforward objection that guides us: keeping our employees, patients and clients safe!

We are asking anyone who does not feel well or has been exposed to others who have contracted the virus to reschedule any annual exams, vaccines or well visits. If your pet is sick and you feel they must be seen, please call our office and we will meet you in the parking lot, in order for you to stay in your car. We can treat your animal as we usually would.

Last, if we experience a high volume of cancellations for any day, we may choose to close our office early to save of finances. We are a small business and dependent on our clients and pets to keep our doors open and operations running smoothly. If you are planning to stop by for medications, supplements or food, we encourage you to call the office just to confirm we will be open. As always we will keep our Facebook page updated with hours and any early office closings during the next few weeks.

Thank you for your patience and understanding and above all else BE WELL!

*The Full Circle Veterinary Hospital Team*
